# TV Advertising is Transforming

Rise of Smart TV, HbbTV, and Connected TV

Shift from traditional linear ads to data-driven TV

# TV Advertising is Transforming

	Turkey	Continental Europe (Average)	Key Difference / Insight
Average daily TV viewing time (linear)	≈ 3 h 45 min (TİAK 2024)	≈ 3 h 10–15 min (EBU/RTL AdAlliance 2023–24)	Turks spend 0,5 hour more per day watching TV compared to the European average.
Linear TV vs. Digital/OTT transition	Linear TV still dominant  (satellite-driven market, IPTV/OTT growing but ~10–15% penetration)	Hybrid & digital advanced  (Connected TV and OTT widely adopted; IPTV is major in markets like France & Germany; terrestrial + digital mix in UK/DE/FR)	Europe is further ahead in digital transition — connected TVs, IPTV and streaming are mainstream;  Turkey remains satellite & linear-heavy but is catching up.

# Broadcasters & Reach

Almost 40 million unique reach through 7 network giants and more  
~77 M online population in TR

**FOXNOW**

**TRT**

 **11.5M**  
HOUSEHOLD/DEVICE  
REACH

**-50%**  
  
**TURKEY POPULATION**

Household & device reach • Approx, 50% of Turkey's population

# Broadcasters' Journey

- It provides around 5-10% boost in digital revenues
- High viewing traffic
- Creates new ad opportunities without overcrowding existing web & app placements
- Helps by offering original proposals, attracts more attention than a standard banner-video offer

# Brands' Choice

- Precision targeting: combining TV's scale with digital audience segmentation
- Measurable ROI: campaign effectiveness tracked with digital metrics
- Innovative formats: interactive, data-based and evolving
- Hybrid planning: integrating linear TV with digital funnels

**PRECISION  
TARGETING**

**MEASURABLE  
ROI**

**INTERACTIVE  
FORMATS**

**HYBRID  
PLANNING**

# Hybrid TV Planning

- GRP-like reach + digital targeting
- CPP based pricing
- Unlocking offline TV budgets
- Also; alternative to walled gardens

Hybrid TV  
Planning

# API Based Formats

- Shifted towards API-based projects and developed original ideas tailored to client briefs

e.g: Weather Data, Financial & Economic Data, Location and Traffic Data, Time & Calendar-Based Data, Social Media & News Data, Sports Results...

# ACR (Auto Content Recognition)

- Leveraged image and audio tracking to deliver the right message at the right time in the right context
- Alternative to time-code

# Data Driven Strategies

- Data-driven: integrating HBBTV user data into digital platforms for targeting & journey mapping
- Merging offline TV with digital campaigns — proven savings (Finish case)

# Brand Lift Surveys

- Measuring the effectiveness of campaigns within the same platform is highly appealing for brands
